

# Pakistan HOU!

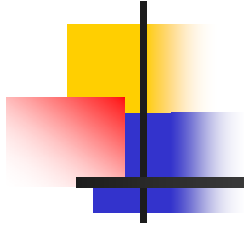

## *Progress*

---

Umai Asim  
Farooqi Girls School  
Lahore

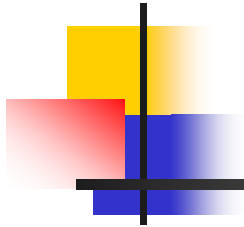

(presented by Carl Pennypacker  
UC Berkeley)

# Telescope Project

- The rector Dr. JUNAID of COMSATS Institute of Information Technology has funded ~ USD \$ 50,000 for the project for their currently under construction campus in ISLAMABAD H9 sector.

## Next Telescope in Pakistan:

- Those guys are already asking me about the next observatory, possible in ABBOTABAD and perhaps a radio telescope in LAHORE too..they are so much excited about it that i have to calm them down a bit during our talk!

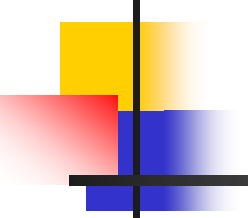

## More Telescopes!

---

Also SUPARCO, pk national space organisation, has contacted me to help them in starting their public astronomy programs through 8" scopes they already have

# Curriculum!

---

In May 2004, Higher Education Commission ISLAMABAD developed, first ever curriculum of Astronomy at BS n MS level..Astronomy was already included in the textbooks at junior and middle school level in 2004, all over the pakistan.
